SCHEDULE I.

A.—IMPORTS.

1. There shall be levied and collected upon goods imported into the Protectorate the several duties set forth in Tables I, II, III, IV, V and VI hereto.

2. The value of goods upon which duty is leviable ad valorem shall be the value of the goods at the place where such goods are purchased as shown on the genuine invoice produced to and accepted by the Comptroller of Customs, together with any purchasing commissions, the cost of packages ordinarily used at the place of purchase, the extra cost of packing and packages for export, carriage to the port of shipment and all other expenses incidental to placing the goods on board the ship, together with the cost of freight, insurance, bank charges, interest, and all other charges up to the time of discharge at Beira or Quelimane as the case may be; provided that in no case shall the value for purposes of duty be less than the cost of the goods to the importer on board ship at the port of shipment plus 10 per cent., or in the case of goods imported into the Protectorate from contiguous territories, the cost of the goods to the importer at the place of despatch.

Customs Duties	IMPORTS—(*continued*).		Govt. Notice No. 129 of 1934, Govt. Notices 55 and 112 of 1935, Govt. Notices 24 and 81 of 1936, Govt. Notices 19 and 29 of 1937 Govt. Notice 88 of 1938

The Comptroller of Customs may allow trade discounts recognized in the particular trade and shown on the invoice to be deducted from the value for duty, but no further deduction may be allowed on account of any cash or special or sample discount or of any arrangements concerning the export or the exclusive right of sale of the goods or any consideration by which a reduction in value results.

3. Whenever goods are imported into the Protectorate under such conditions as render it difficult to determine the value thereof in as much as—

(a) such goods are not sold for use or consumption in the country of export; or

(b) the right of using such goods, but not the right of property therein, is usually sold or given; or

(c) such goods are usually or exclusively sold by or to agents or by subscription; or

(d) such goods are sold or imported in or under any other unusual or peculiar manner or conditions, the Comptroller of Customs may determine the value of such goods for purposes of duty in accordance with the provisions of this schedule.

4. All invoices for imported goods manufactured in a foreign country and purchased in their country of origin shall be in English and shall indicate the value of such goods as expressed in the currency of that country, and also the value of the same as expressed in British currency, the latter value being computed at the rate of exchange for the time being current between the two currencies at the date of purchase, and such rate of exchange shall be clearly stated on the invoice.

5. Where the importer is unable to produce particulars of all or any of the charges hereinbefore referred to, the Comptroller of Customs may accept payment of import duty on such valuation additional to the purchase price as in his opinion shall represent the actual cost of the goods as defined in paragraph 2 of this schedule; but where the importer of the goods declines to accept such valuation for the purpose of assessment of import duty, entry of the goods may be permitted by the Comptroller of Customs on payment of the amount of the duty so assessed by him subject to adjustment of same on production of evidence to his satisfaction of the actual amount of such charges within six months of the date of entry of the goods.

6. Invoices and other documents relating to the importation of goods may be retained by the Comptroller of Customs.

7. Without prejudice to any right of final appeal contained in section 15 of the Customs Ordinance, 1906, the Comptroller of Customs shall decide any dispute which may arise as to the rate of duty to be assessed or dues to be charged on a particular article imported whether specifically mentioned or not in these schedules.

8. No import duty shall be levied or collected upon the goods set forth in Table VII hereto.

9. Where the import duty amounts to less than 3d., a sum of 3d. shall be charged, and where such duty exceeds 3d. or any multiple thereof an additional 3d. shall be charged, in lieu of such excess; provided that in the case of goods imported by post the minimum duty shall be 3d. and thereafter duty shall be calculated to the penny next above.

10. A rebate of the full import duty on all goods lawfully re-imported into the Protectorate shall be allowed upon the following conditions :—

(1) That a certificate containing a full description of the articles to be re-imported be obtained from a Customs Officer at the time of exportation, which certificate must be produced on re-importation.

(2) That the articles re-imported are those actually described in the certificate and are re-imported within eighteen months from the date of exportation.

11. A drawback of 97 per cent. of the import duty paid on all goods other than perishables lawfully imported into the Protectorate shall be allowed if such goods are exported by the importer thereof within twelve months of the first entry of such goods: provided that, with the exception of commercial representatives' motor vehicles and samples, theatrical properties and articles imported by tourists for their own use, such goods shall not have been used in the Protectorate.

12. A drawback of the full import duty paid on goods used in the construction or repair of railway rolling-stock shall be allowed on proof being given to the Comptroller of Customs that the goods have been so used.

13. A refund of the full import duty paid on aviation fuel and lubricating oil used by Royal Air Force Aircraft while operating temporarily in the Protectorate and on other goods essential for use and consumption during such operations shall be made to the Air Ministry on production of a certificate therefrom specifying the quantity of such fuel, oil and other goods actually off-lifted.

14. A refund of the full duty paid on crude oil shall be paid to the consumer thereof in respect of such quantity of such oil as he shall prove to the satisfaction of the Comptroller of Customs to have been used by him for the purpose of supplying motive power to Diesel lorries which are used solely on private estates.

NOTES.

For the purpose of ascertaining the horse-power of any motor-car deriving its motive power wholly from a steam, internal combustion or other engine worked by a cylinder or cylinders there shall be taken:—

(i) in the case of a single-cylinder engine, the horse-power attributable to the cylinder of the engine;

(ii) in the case of an engine having two or more cylinders, the sum of the horse-powers attributable to the separate cylinders.

The horse-power attributable to any cylinder shall be deemed to be proportional to the square of the internal diameter of such cylinder measured in inches, and shall be determined according to the number of square inches contained in such square, the unit being taken to be:—

(iii) in the case of a single-acting cylinder having a single piston, one horse-power for every $2\frac{1}{2}$ square inches;

(iv) in the case of a single-acting cylinder having two pistons, one horse-power for every $1\frac{3}{5}$ square inches.

(v) in the case of a double-acting cylinder having a single piston, one horse-power for every $1\frac{1}{4}$ square inches.

Any motor vehicle deriving its motive power or any part of its motive power otherwise than from an engine worked by a cylinder or cylinders shall be deemed to be of a horse-power exceeding 12 but not exceeding 15, provided that, where the motive power is derived in the part from an engine worked by a cylinder or cylinders the horse-power of the vehicle shall not be deemed to be less than the horse-power attributable to the cylinder or cylinders of such engine.

Where it appears that in consequence of the exceptional design or construction of the engine of any motor vehicle the horse-power as calculated under the foregoing rules is substantially less than the power which the engine is actually capable of developing, the horse-power of the vehicle shall for the purposes of these regulations be taken to be the same as that of a vehicle of equal efficiency deriving its motive power from a cylinder engine of the ordinary type.

In measuring cylinders and calculating horse-power, fractions of an inch and fractions of an unit of horse-power are to be taken into account.

For the purposes of duty under items 17 (a) (I) to (IV), (b) I and II and (c), a fraction of an unit of horse-power or of a cwt., as the case may be, shall be assessed in proportion to the rate chargeable on the particular vehicle.

The duty on whisky, brandy, rum and gin shall be calculated on the proof strength as shewn by Sikes' hydrometer at as low a temperature as possible. When such spirits are mixed with colouring, sweetening or other matter in solution tending to conceal the actual strength, an addition of 5 per cent. shall be made to the apparent strength as shewn by the hydrometer in lieu of the test for obscuration.

Six reputed quart bottles or twelve reputed pints shall be assumed to contain one liquid gallon.

Reputed 12 oz., 14 oz., and 16 oz. packets of candles to be deemed to be of those weights respectively.

Goods chargeable with duty by weight shall, except where otherwise provided for, be charged with duty on the net weight, which may be arrived at either by weighing net, or deducting from the gross weight the actual tare or an average tare agreed to by the importer.

Postal.	Money Orders issued in Nyasaland and payable in the Irish Free State are exchanged through the intermediary of the British General Post Office. From the amount of every such order a commission will be deducted by the British Post Office as under :—	£ s. d.	Govt. Notice No. 122 of 1924
	For each pound or fraction thereof	2	
	With a minimum charge of	4	
	A Money Order shall not be issued for a sum exceeding £40, and shall not contain a fractional part of 1d.		Govt. Notice No. 133 of 1921
	Remittances of over £40 may be made by means of a number of Money Orders.		
	Whenever the commission on a money order calculated at the rate prescribed by any regulations now or hereafter in force under this Ordinance shall amount to a less sum than would be the case were such commission calculated at the current bank rate of exchange on drafts from Nyasaland to the country of payment, there shall be payable by the remitter such additional charge as the Postmaster-General from time to time shall determine to be equivalent to the difference between the commission calculated at the said prescribed rate and commission calculated on the same amount at the bank rate as aforesaid.		
	BRITISH POSTAL ORDERS— The following are the amounts for which Postal Orders are issued, together with the Poundage payable in Nyasaland in respect of each Order :—		
	Amount of Order—		Govt. Notice
	0/6, 1/-, 1/6, 2/-, 2/6	2	179 of 1920
	3/-, 3/6, 4/-, 4/6, 5/- 5/6, 6/-, 6/6, 7/-, 7/6, 8/-, 8/6, 9/-, 9/6, 10/-, 10/6, 11/-, 11/6, 12/-, 12/6, 13/-, 13/6, 14/-, 14/6, 15/-	3	
	15/6, 16/-, 16/6, 17/-, 17/6, 18/-, 18/6, 19/-, 19/6, 20/-, 21/-	4	
	The sender of a Postal Order, whether made payable in the Nyasaland Protectorate or elsewhere, may increase its value by an amount not exceeding 5*d.* by affixing Nyasaland Postage Stamps not exceeding two in number to the face of the Order. No credit will be given for stamps which are in excess of two or which are affixed elsewhere than in the spaces provided. Odd halfpence will not be paid. Stamps perforated with initials or marks, or embossed or impressed stamps cut out of envelopes, post cards, etc., cannot be accepted for this purpose.		
	§ *Places of Issue and Payment*— Postal Orders are issued and paid at all Post Offices in the Nyasaland Protectorate, and are also issued and paid in the undermentioned British Possessions and other places abroad :—		Cap 106

	Period during which Orders are payable. If an Irish Free State, Union of South Africa or a British Order be not paid within six months from the last day of the month of issue, a commission equal to the original poundage will be charged. The commission thus paid must be affixed in Postage Stamps to the back of the Order. Postal Orders which are not presented for payment within six months from the last day of the month of issue must be sent to the Accountant, G.P.O., Zomba, with a request for payment at some specified office.		
	MISCARRIAGE OR LOSS.—The remitter or payee may obtain information regarding the payment of an order. Applications, giving full particulars of the order and accompanied by a fee of 2½d. for each Order, should be addressed to the Accountant, General Post Office, Zomba.		
	EXPRESS DELIVERY SERVICE—		
	Express messengers are provided for the performance of the following services:—		The Post Office Ordinance, Cap. 106
	Service 1—Express throughout—		
	The delivery of letters, etc., by special messenger within a distance of fifty miles.	First 6 miles: 6d.	
	Letters sent by special messenger for the whole distance (Service (1) will be charged for at the rate of 6*d.* for the first 6 miles, and 1*d.* for each additional mile or portion of a mile.	Each additional mile or portion thereof: 1d.	
	The fee payable will in no case be less than the ordinary Postal Rates of the Protectorate.	Minimum charge 6d.	
	In cases where a reply is sent a further charge is made calculated at half the original mileage fee; fractions of a penny being reckoned as one penny. This may be prepaid by the person at whose instance the original service is undertaken.	Replies charge half original mileage	
	Messengers may be kept waiting for a reply for one hour.		
	Persons desiring to send several packets for delivery to different addresses by the same messenger may do so if they choose to risk the chances of error and confusion by the native carriers. In no case, however, will a messenger be despatched with a greater weight than 22 lbs.		
	Service 2—Express delivery after transmission by post—	Ordinary postage plus express fee 6d.	
	Letters forwarded by this service are sent out for delivery by special messenger upon arrival at the Post Office of destination.		
	Articles to be forwarded by ordinary post and afterwards delivered by special messenger from the Post Office of destination (Service 2) should be marked "Express," and have affixed postage stamps to the amount of at least the minimum Express Fee (6*d.*) in addition to the ordinary postage. It is desirable that Express Packets should be brought to the Post Office counter and not posted in a letter-box.		
	On arrival at the Post Office of destination the packet will be sent out for delivery accompanied by a form upon which is stated the name of the addressee, the time of the messenger's despatch, and, in the event of the distance being greater than that covered by the fee affixed to the letter, the amount of the additional charge payable on delivery. This form should be signed by the person receiving it, and after being marked with the time of the messenger's arrival, handed to him for return to the Post Office.		

**Postage stamps of these Colonies will be paid up to the value of 5d., excluding an odd half-penny, when affixed to British Postal Orders.*

Postal.	*Service 3*—Express delivery on arrival of mail— By this service any person can arrange for the delivery of his correspondence arriving by a particular mail, or a delivery on fixed days of the week. Persons desiring that their correspondence arriving by any particular mails should be sent out for delivery (Service 3) should, previous to the arrival of the mail, make written application to the Postmaster, enclosing stamps for the payment of the fee calculated at the rate of 6*d.* for the first 6 miles and 1*d.* for each additional mile or portion of a mile. If there are no letters a messenger will (unless otherwise arranged) be despatched with an intimation to that effect, the fee paid being retained to pay for this service.	First 6 miles: 6d. Each additional mile or portion thereof 1d.	The Post Office Ordinance, Cap. 106
	PRIVATE BAGS— 1. CONDITIONS OF RENTAL.—The Department undertakes to make up private post bags on the following terms: (*a*). Each bag must be provided by and at the cost of the person desiring the facility, and is subject to the approval of the Postmaster-General. (1) For routes served by native runner, a bag weighing not more than 2½ lb must be supplied. The bag should approximate to the size 22 in. by 14 in. and be fitted with a neckstrap and hasp, and lock with at least two keys. Bags complying with this specification can be supplied by the Post Office at landed cost-price. The approximate landed cost-price is 25s. All applications for bags should be forwarded to the Postmaster-General, Zomba. (*b*). A rental of 10/- per annum (1st January to 31st December) must be paid in advance, and if the renter requires the bag to be made up at more than one Post Office, a separate rental will be chargeable for each office. In respect of new services rental is charged for the unexpired portion of the year, any portion of a quarter being considered a full quarter. All rentals are renewable on the 1st of January each year. It is to be clearly understood that the rental charged is purely for the making up of the bag, and not for the conveyance. The charges for a Private Bag conveyed by the Post Office are as follows: 1. For each daily conveyance by the Post Office in one direction by special messenger to a point within the Township boundary or two miles of the office whichever be the greater (either out or in) 15/- a year. 2. For conveyance by Postman, on mail routes, for a distance of: Not exceeding 10 miles ... ... £2 a year. and exceeding 10 „ ... ... £3 „ (*c*). If the renter resides on a postal route, the bag or bags will be conveyed by mail carrier providing circumstances permit. If the renter resides off a mail route, he must make his own arrangements for the conveyance of the bag to or from such route or the nearest Post Office. The bag must be made up at the nearest convenient office. (In order to avoid delay to the mail carrier, it is usual to make up private bags at the office situated at the starting point, or at an office en route at which a stoppage is made for sorting purposes, but a bag will not be made up at one Post Office for delivery at another.) (*d*). The bag may be used for letters for persons in the neighbourhood of the renter's residence, at an extra charge of 10/- a year for each person, provided that the permission of the renter is given to the Postmaster in writing. Where such permission is given, the renter will be held responsible for all unpaid postage on letters for such persons. Articles which cannot be delivered within a reasonable period should be returned to the Post Office endorsed with the reason for non-delivery. Mis-sent articles should be sent back by the first opportunity.		Govt. Notice No. 184 of 1921

Postal.	PRIVATE BAGS—(*continued*). (*e*). Registered packages are usually not delivered until receipts for them are obtained. An exception is made in the case of private post bags, the packets being enclosed therein with the relative receipt slips, provided the renter indemnifies the Postmaster in writing from all liability and guarantees to return the receipts by first post. The forwarding of parcels can similarly be arranged, but the Postmaster will use his discretion, based principally on the circumstances of conveyance, as to whether he will send out bulky or fragile parcels attached to the bag, or require them to be called for at his, or another office, if nearer. (*f*). The renter must provide for the bag being met on its arrival at the appointed place and for the return bag being handed to the proper officer on its return journey. Under no circumstance can the means of conveyance be kept waiting at any point en route should the bag not be ready for despatch, nor will a detour from a recognized route be made to deliver a private post bag. (*g*). Transfer of a private post bag can be effected only on a written request of the registered holder, and with the authority of the Postmaster-General. (*h*). At offices where private boxes are installed a private post bag cannot be rented by any resident without a private box being rented in addition. (*i*). All applications for private post bags should be made to the Postmaster of the office from which the service is desired: and that officer will obtain the authority of the Postmaster-General before instituting the service. (*j*). In the event of the above conditions not being complied with, or if in the opinion of the Postmaster-General improper use is being made of the bag, the Postmaster-General may discontinue the service forthwith.	£ *s.* *d.*	The Post Office Ordinance, Cap. 106 Govt. 	PRIVATE BOXES.— 1. CONDITIONS OF RENTAL.—Private Post Office Boxes may be rented at certain Post Offices, and the renter of a Private Post Office Box will accept the lease under the following conditions, and will forfeit all rights by non-compliance or failure to carry out any or all of the rules hereinafter set forth. He will be held responsible for the observance of the regulations, and no other person will be recognized in connection therewith. (*a*). The rental fee for the box, is £1 1*s.* small box, £2 2*s.* for large box per annum, which is payable in advance, and is calculated to 31st December in each year, any portion of a calendar quarter being considered as a full quarter. In addition, an initial deposit of 6*s.* to cover the cost of the lock and keys must be made by the renter of a box. This deposit will be repaid when the keys are returned to the Postmaster-General. (*b*). The hours for access to Private Post Office Boxes may be varied at any time by the Postmaster-General. (*c*). A box may not be rented in a fictitious name, or for an improper purpose. (*d*). The transfer of Private Post Office Box rights from one Post Office to another is not permitted; and the transfer of a box from one person to another is subject to the approval of the Postmaster-General and will only be considered in cases of bona fide change of business or other sufficient reasons. (*e*). No two persons, unless they are in business partnership, can jointly rent one private box, and persons or firms trading under two or more designations may be required to rent a box for each designation. Under this regulation any group of companies having a joint management may be required to rent a separate box for each company. (*f*). Delivery into a Private Post Office Box is in all respects equivalent to personal delivery to the addressee. (*g*). Mail matter will be placed in a box only when addressed to the renter of the box, or to his care, or specially addressed to the number of the box.		Govt. Notice No. 185 of 1921

Postal.	PRIVATE BOXES.—(*continued*).	£ s. d.	The Post Office Ordinance, Cap. 106 Govt. Notice No. 185 of 1921
	(*h*). A person not being a renter, whose mail matter is addressed to a box, can only obtain such by means of the key of the box or through the renter.		
	(*i*). Mail matter delivered in error, or accidentally addressed to a wrong box, must be immediately reposted, with the words "Not for box " written thereon. Should a case come under notice where this is not done or flagrant neglect is shown by the renter or person in possession of the key in detaining or delaying such mail matter, the box may be declared forfeited and the return of the keys demanded.		
	(*j*). In exceptional circumstances—the loss of a key for instance—mail matter from any private box may temporarily be delivered at the counter, subject to compliance with the provisions of paragraph (*k*).		
	(*k*). Unless the renter be well known, or be identified by some one known to a responsible officer of the Department, the only admitted "proof of identification" shall be the receipt for the box rent.		
	(*l*). Mail matter will be re-addressed from one box to another only in exceptional circumstances, and upon application to the Postmaster-General. Postmasters are not obliged to re-address mail matter unless the box be closed.		
	(*m*). A Private Post Office Box is provided exclusively for the reception of mail matter which has passed through the Post. Any private articles deposited therein by a renter will be surcharged as if posted out of course.		
	(*n*). When a box is let two keys are supplied both of which are required to be returned to the Postmaster when the box is given up. If a key is lost information must at once be given to the Postmaster in order that a new lock may be fitted, the cost of which will be payable by the renter.		
	(*o*). No lock may be placed on any box other than a lock supplied by the Department, and no repairs to a box may be executed except by the Department.		
	(*p*). The renter of a box must defray all expenses for damage to such box or to locks or keys thereof, if caused by him or due to his negligence.		
	(*q*). The Postmaster-General may refuse to let or re-let a box to any person without assigning any reason for such refusal.		
	(*r*). The foregoing conditions may at any time be augmented or revised, as the Postmaster-General may from time to time deem expedient, by notification in the Post Office Guide; and any such addition or revision shall apply to every box rented under the foregoing conditions.

NOTE.—Maize is the staple foodstuff in most districts; groundnuts, rice, wheat, beans and various other crops are also grown by natives for local consumption, but it is impossible to make an accurate estimate of the quantities of any of these crops.

The above tobacco and cotton figures represent the quantities purchased in each district, and do not accurately reflect the production by districts, as many natives grow their tobacco and cotton in one district and sell in another.

* This figure comprises the accessible patches of Widdringtonia forest on Mlanje Mountain, a few small blocks of *Copaifera mopane* forest, and government and privately-owned forest plantations. It is impossible to give an acreage for riparian forest which consists usually of only a single line of trees, or for commercial timbers sparsely scattered throughout some of the savannah and other types of forest and woodland.

† Open woodland and savannah types, some of which contain a certain amount of commercial timber scattered throughout them.

(*f*)

General information regarding the industry and the possibilities of development.

Because of climate and topography, in very many regions the retention of forest or other natural vegetation assumes great importance on account of its influence on the storage of the rainfall and on the prevention of serious erosion and floods. Under existing conditions of shifting cultivation and of little control over land usage, protective forestry has essentially to take a very prominent place in forest policy.

Many different types of forest are to be found in the territory, but the great majority are savanna-woodland types, and a high proportion are composed of small trees of little commercial value except for supplying poles and fuel for local use. The territory's resources of major or commercial timber (i.e. trees of dimensions and quality suitable for conversion into sawn timber) are scanty and sporadic.

Forty-eight state forest reserves have been constituted, totalling 2,623 square miles, the majority being primarily protective as they comprise main watersheds and catchment areas. The intensity of their management is governed entirely by local markets. Two reserves contain small patches of valuable coniferous forest (*Widdringtonia whytei*) and are under comparatively intensive management although situated some distance from markets. For well over 40 years these coniferous forests have supplied the entire requirements of Government in building timber, and sales to the public have considerably increased in recent years. In two other reserves, near Zomba and Limbe Townships, planting schemes with conifers have been carried out for the production of major timber, and there is now a steadily increasing output from them. Other reserves, near townships, are under intensive management for firewood and pole production, including planting in some areas. In the remainder of the reserves essentially protective, trees of value for commercial timber are very sparsely distributed; many of the reserves are remotely situated from markets and main lines of transport. Consequently until such time as local markets develop for their produce, they will remain only under rudimentary management designed for general protection, for mitigating fire damage by early controlled burning, and for improving their growing stocks at a very low cost. Although scanty, the territory's resources of commercial or building timber are sufficient to meet a small increase over present local demands. Even if the resources were greater it is doubtful if any export trade in timber could be developed owing to high transport and freight costs. The only wood imports which have rapidly increased in recent years are plywood tea-chests; the possibility of substituting a local product for plywood has been explored, but without success.

A scheme of village communal forests has resulted in the reservation of 4,359 separate areas with a total acreage of 213,946. These are under the control and management of village headmen, assisted by district African foresters, the principle of selection being to take land which can best be spared from other usage. The foresters also assist the headmen in demarcation and management. Although the greater part of the forest produce used by the native population is at present obtained from undemarcated woodlands and forest regrowth, the village forest areas are more and more being relied upon as source of supply in congested localities.

In addition to providing for the protection of state and communal forests, the forest laws provide for the control of cutting and cultivating on the banks of rivers and streams, for the protection of any steep hillslopes which may be specifically ordered, and for the protection of certain scheduled species of trees growing on native lands and Crown lands. A special soil erosion branch of the Forestry Department has been formed to co-ordinate protective forestry with agricultural industry, and generally to promote a more orderly utilization of land.

Forestry in some form is practised on almost all agricultural estates under European management, and at most mission stations. In all Government land leases there are afforestation covenants which provide for the retention of natural forest over a portion of the land, or for reafforestation by planting. The greatest needs of the settler community are for poles and firewood and there is a general preference for producing these from planted exotic species where possible. The aggregate area of artificially established woodlands on estates is over 20,000 acres.

The only forest industry of any importance is the extraction of timber and firewood for local use. Owing to the small size and scattered nature of the blocks of commercial forest there are no forest saw-mills, and the trees are converted into timber of portable dimensions by hand-sawing at the site of fellings. In the towns, re-conversion into smaller sizes is usually carried out by circular saw. There is an increasing use of local wood for packing tobacco for export. Although the total annual consumption of local *sawn* timber is comparatively small, there is a very large consumption in the form of poles (see table (b)), particularly by the large native population in the building of their huts, which invariably have to be renewed every two or three years. Firewood is the general fuel for domestic use and considerable quantities are consumed in tea factories, tobacco-curing, brick-making, lime-burning, Lake transport, and on the railway north of Blantyre. Only an insignificant amount of charcoal is manufactured. Much wood is destroyed in the periodical re-opening, for agriculture, of land left to rest under "bush" fallow for a few years.

Furniture is manufactured both by Europeans and natives to supply the small local demand, and where palms are plentiful the natives weave mats and other articles from palm leaves for local sale. There is also a small local trade in baskets and wicker-work made from bamboos and reeds, and in curios fashioned from African ebony (*Dalbergia melanoxylon*) and other hardwoods. Most native domestic articles are made from local woods, and near the lakes and main rivers canoes are made in the form of hollowed-out tree trunks. The fibrous barks of various trees and shrubs are used by the natives as a string for binding purposes, and most native medicines are derived from forest products.

(*c*) General information regarding the industry and the possibilities of its development.

Considerable supplies of fish are obtained from Lake Nyasa and Lake Shirwa. The industry is mainly in the hands of natives who catch the fish and sun dry them for sale to natives in other parts of the Protectorate. Fresh fish is obtainable in townships and settlements throughout the season, the requirements of the European and Native consumers are catered for by natives who transport the fish by cycle and motor cycle. Large quantities of fish are exported to S. Rhodesia for sale, principally to natives.

Water power is utilized by the Government for the generation of electric light and power for use in Zomba. Private persons in various districts use water power for running saw mills, grinding meal, ginning cotton, and tea and tobacco factories.

Furniture, baskets, etc., are made at the missions and elsewhere; mats and pottery by natives in certain districts; maize meal and beer are made by natives throughout the Protectorate for their own use.

There are eleven ginneries in the country, but only ten of them worked in 1938 and they handled 48,683 cwts. of lint cotton.

96,948 cwts. of tea were manufactured in the Mlanje and Cholo districts.

Tobacco, cotton and tea are the most important crops grown for export.

With the aid of grants from the Colonial Development Fund bored wells and dug wells are being constructed for the relief of natives in the drier parts of Northern and Southern Provinces, as well as for the opening up of new areas for native settlement and experimental stations for native agriculture and tea have been opened and developed.

LOCUSTS. 1938.

The only species of locust occurring in the Protectorate was the red locust (*Nomadacris septemfasciata* Serv.).

Adult swarms of the 11th generation appeared to leave the country, almost completely, during December, 1937, and with the exception of small areas on the southern boundary, south of Port Herald, and in the eastern part of the Upper Shire district no egg-laying took place. The resulting small and scattered hopper bands (12th generation) were mainly destroyed in the south but some escapes occurred in the Upper Shire district. Consequently from March to July very few adult swarms (12th generation) were recorded throughout the Protectorate, but at the end of this period renewed activity began and several swarms entered the southern districts. By the end of the year swarms had penetrated all districts as far north as the southern end of the Dedza district, but that part of the Protectorate lying north of Lat. 14°S. remained free. Egg-laying (13th generation) took place in many districts during December and some hopper bands had hatched by the end of the month.

In the absence of hopper bands and adult swarms the crops of 1937-1938 were not affected, but some damage by adults of the 12th generation to early food crops of the 1938-39 season was reported from a few districts

LONG SENTENCE, CENTRAL PRISON, ZOMBA.

QUESTIONS.	ANSWERS.
I. If the prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?	Complete separate system for Europeans and separate prisons for native females. 4 single cells for Asiastics, and 62 for native males.
II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?	Asiatic and native prisoners are placed in charge of warders when at work. Sentries patrol the blocks outside the cells and wards at night, and the ward doors have an aperture for observation purposes.
III. How many cells are there; and how many associated wards?	European Prison: 5 single cells. Asiatics: Single cells as required in "A" block: Native:— 'A' block. 66 single cells and 10 wards. 'B' block. 16 wards—12 prisoners each; 11 wards—8 prisoners each. Female Prison 1 ward and 4 cells. Hospital 2 wards. Leper Prison 1 ward and 4 cells. Venereal „ do. Infectious „ 2 wards and 4 cells. New Admissions 2 wards.
IV. Taking the *average* number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep? And what superficial area? V. How are the prisoners classified?	By sentence. Section I—Sentence of 3 years and upwards. „ II—Sentence of less than 3 years. Grade A—Not previously convicted of serious crime „ B—Recidivists.
VI. Is penal labour—that is, labour by treadmill crank, or shot drill—in force?	No.
VII. If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced?	No.
VIII. What kind of labour, other than penal labour, is in use?	Blacksmithing, tinsmithing, brick-making, shoe-making, carpentry, string-making, tailoring, and weaving.
IX. If the prisoners are employed beyond the walls of the gaol, state—	
1. On what kind of work they are so employed.	Prison sanitation, road-making, building, bricklaying, brick-making, general labour and prison gardens.
2. How are they supervised?	By Prison Warders.
3. How many escapes of prisoners, while being employed beyond the gaol, have taken place during each of the last three years?	1935, 5 (3 recaptured). 1936, 10 (8 recaptured). 1936, 10 (8 recaptured). 1937, 4 (all recaptured). 1937, 4 (all recaptured). 1938, 8 (6 recaptured).
4. How the profits of their labour are accounted for.	Credited to Revenue: Prison Industries.—No charge made for work done for Government departments, but value of labour shewn in return.—see XI

Occupation.

Extent of—	
I. The airing courts	15,942 sq. feet (enclosed).
II. And other grounds	25 acres. Gardens and afforestation.
Are the inmates, as a rule, given daily exercise, their health permitting?	Whenever possible they are allowed outside the asylum for exercise and employment, doing a limited amount of manual labour: gardening, building, brick-making, pointing walls, mat, string and basket-making, etc. Inmates who desire are given a portion of the garden to cultivate for themselves, in addition to the scale of diet. Grass-cutters for thatching attendants' lines are sent beyond the asylum grounds. All inmates are encouraged to work.
Are they confined to airing courts, or allowed to walk in other grounds, and sent beyond the asylum?	
Are any means taken to amuse the inmates or to induce them to amuse themselves? Detail them.	
How many religious services were held?	Male inmates 18, female inmates, Nil.
What was the average attendance?	Males 10·38, female inmates, Nil.
In what building, and how many could it contain?	Males in room in administrative block 240 sq. ft. Females at female prison airing court.

LAKE NYASA.

1. At bar or entrance, what is— (1) the minimum width? (2) the minimum navigable depth, L.W.O.S.T.? *Note.*—If between the entrance and the deep sea there are bars or shoals where a lesser depth occurs than the minimum indicated above, a list of such obstructions and of the depths over them (L.W.O.S.T.) should be given.	Not applicable to any port on Lake Nyasa.
2. In the approach channel from bar or entrance to berthing accommodation, what is— (1) the minimum and maximum width? (2) the minimum and maximum depth, L.W.O.S.T.?	Do.
3. What is— (1) the rise and fall of tides (a) ordinary springs, (b) ordinary neaps? (2) the rise of ordinary neaps above L.W.O.S.T.?	No tides.
4. What is the maximum available depth of water— (a) at piers or wharves, L.W.O.S.T.? (b) in the case of enclosed docks in the entrance locks, if any, and at dock quays, H.W.O.N.T.?	11 feet at pier at Chipoka.
5. What are the respective lengths of piers, wharves, or (in the case of enclosed docks) dock quays, where the maximum depth of water referred to in Question 4, exists? What percentage does the total of these lengths bear to the total accommodation at the port?	Pier 100 feet at Chipoka, berth for one vessel.
6. What are the dimensions (length, loaded draught, and beam at that draught) of the largest vessels which under existing circumstances, can be— (a) berthed alongside any pier or wharf (L.W.O.S.T.)? (b) in the case of enclosed docks— (1) admitted direct to? or (2) admitted through the entrance lock of any important dock or docks, H.W.O.N.T.?	Any vessel on Lake may be berthed at Chipoka.
7. What are the dimensions (length, breadth, and depth over sill H.W.O.N.T.) of the largest dry dock or floating dock in the port?	No dry docks or floating docks.
8. Are operations in progress to increase the depth of water— (a) at the entrance and in the approach channel— (b) in the case of enclosed docks at the entrance lock, if any, of any important dock or docks— (c) at the principal berths— to 40 feet at L.W.O.S.T. (in the case of the berths at enclosed docks, H.W.O.N.T.), and is accommodation being provided for vessels 1,000 feet in length and of 100 feet beam? If not, to what extent is deepening being effected, and for vessels of what dimensions (length, draught, and beam at that draught) is accommodation being provided or in contemplation?	Not applicable to any port on Lake Nyasa.
